

## Mental health and wellbeing training for school leaders

Designed for Senior Leaders and Emotional Health and Wellbeing Subject Leads, this programme of study ensures staff have the up-to-date information to lead mental wellbeing effectively across school; enabling schools to not only recover from the pandemic but to shift school culture to ensure long-term impact and lifelong change.

Whole school certification from £495 +VAT  
Funding available, enquire for eligibility

# This training will:

- Provide you with the tools and support you need to audit your whole school's current mental health status (including all students and all staff) and identify priority key areas for improvement
- Equip you to take a strategic approach to mental health in your individual school context by providing examples of successful embedding of mental health and wellbeing concepts within your existing curriculum plan
- Support you and your staff in understanding the importance of prioritising mental health and wellbeing recovery
- Provide insight into how to ensure your school is meeting the current DfE and OFSTED requirements for mental health and wellbeing priorities
